

Bird Beak Lab – Activity sheet

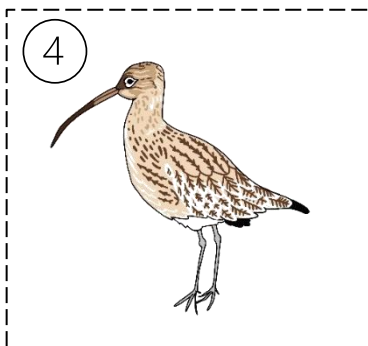

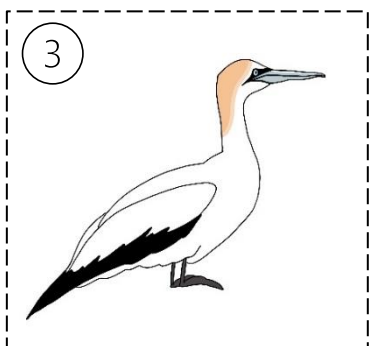

Instructions!

- Carefully cut out each bird and bird name separately.
- Match each bird to its correct species name.
- Now group your birds into those with short beaks and those with long beaks.

Short beaks - useful for catching fish and small creatures like insects and plankton

Long beaks - help pin down fish and dig in the sand

Little Egret

Guillemot

Little Auk

Curlew

Puffin

Herring Gull

Arctic Tern

Gannet
